

King County Metro Long Range Plan

Community Advisory Group
October 15, 2015

Agenda

Meeting Objectives:

- Discuss the technology and innovation chapter of the plan and facilitate discussion for input
- Discuss aspects of the plan related to integrating with Sound Transit and other transit service and facilitate discussion for input
- Review results of ESJ Roundtable
- Discuss revised schedule for joint CAG/TAC meeting in December

Agenda

6:00 – 6:05 p.m. **Review agenda**

6:05 – 6:20 p.m. **Outreach update**

6:20-6:55 p.m. **Technology and Innovation in the Long Range Plan**

6:55 – 7:30 p.m. **Integrating with Sound Transit and other transit service**

7:30 – 7:45 p.m. **Review CAG work plan and planning timeline for the Long Range Plan**

7:45 – 8:00 p.m. **Discuss upcoming joint meeting with the Long Range Plan TAC**

Technology & Innovation

Microtransit- privately operated transit, on-demand service in vehicles carrying 12-20 people, often mirrors public transit routes

Technology & Innovation

Transportation Network Companies (TNCs)- point-to-point rides, smart phone interface and integrated payment; more recently UberPool and LyftLine combine multiple trips into one vehicle

Technology & Innovation

Autonomous Vehicle (AV) Technology-

Self-driving vehicles

Likely to be for sale within next five years

More safe and efficient travel

What will be the impact on transit?

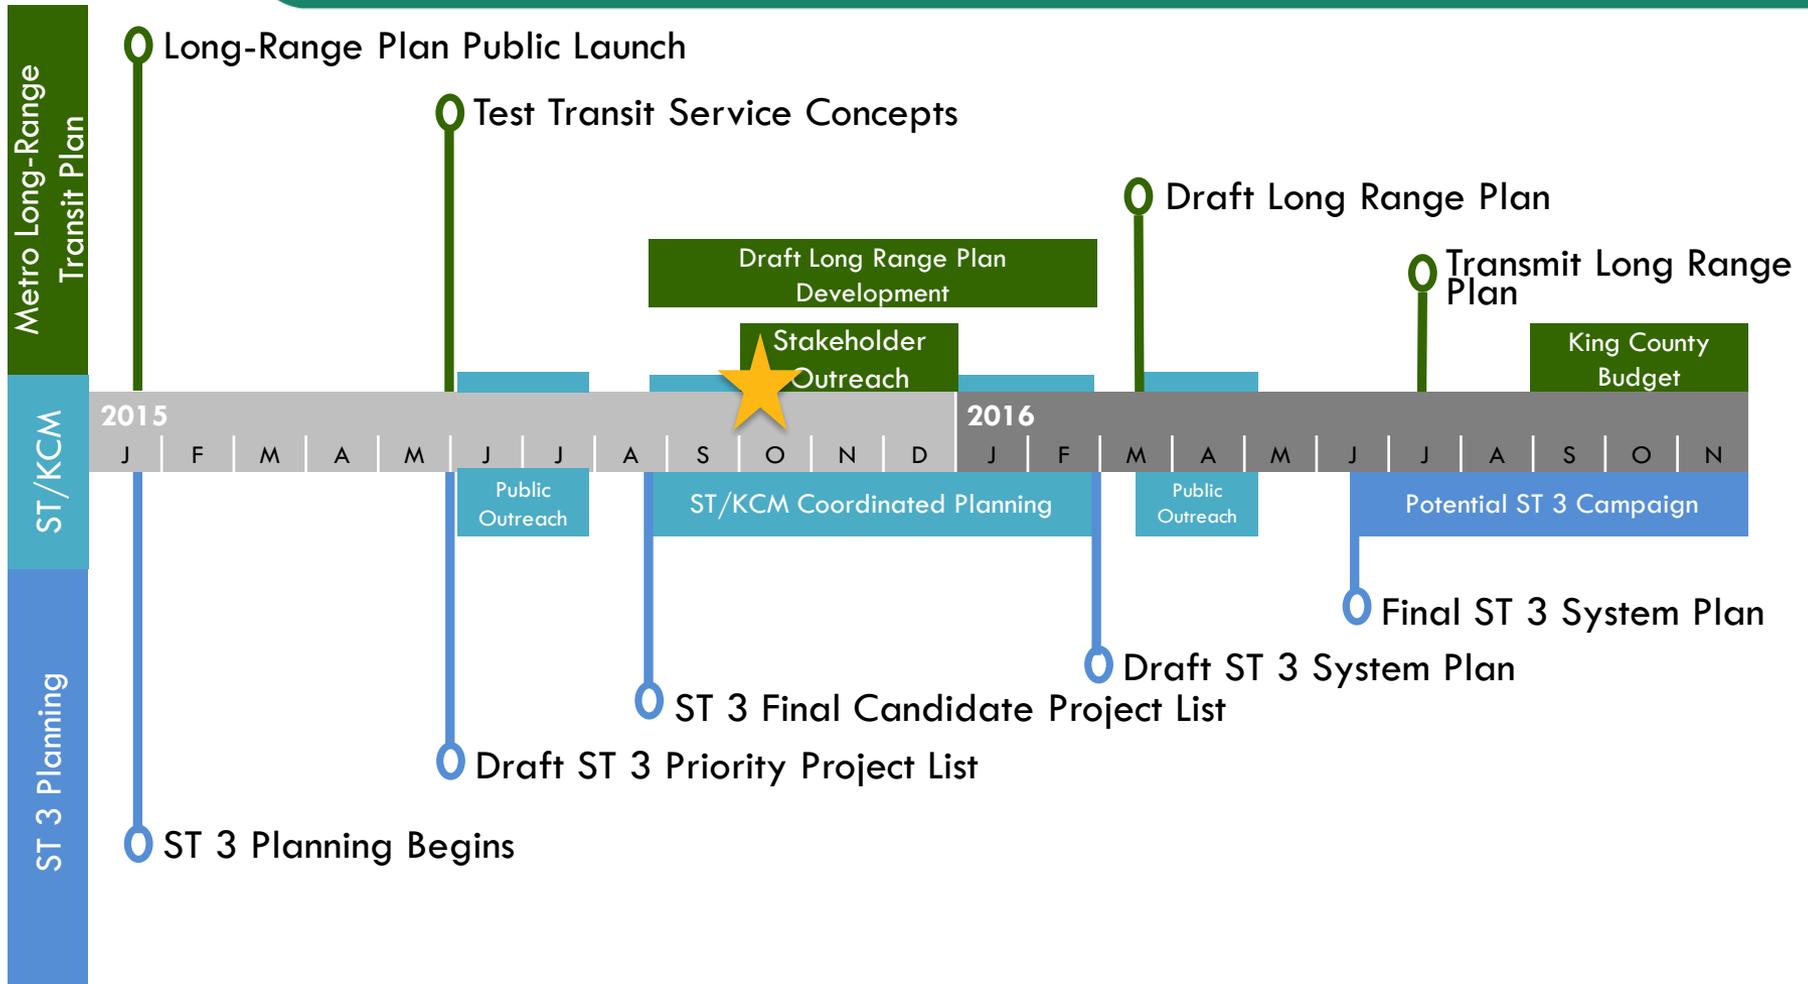

- Operational efficiency
- Safety
- Financial savings

Technology & Innovation

Discussion

- Passenger/Bus Interface: how do you get information about transit service?
- Rolling Stock: how could the buses change/improve to make the transit experience better ?
- Corridors: how could the roadways be enhanced/improved to help transit move better?
- Service: how could the way we deliver transit service change to better meet demand?

Metro and Sound Transit Coordinated Timeline
